Hints if you're struggling in your math class:

- 1) Ask more questions during class and do all your homework.
 - 2) Take good notes – write down everything your teacher writes on the board.
 - 3) Take advantage of online resources such as provided materials or Khan Academy or www.mathispower4u.com.
 - 4) Form a Study Group with students in your math course – they don't have to be in your same period.
 - 5) See your teacher or other math teachers before or after school for extra help.
 - 6) Starting after Labor Day, get peer tutoring from Mu Alpha Theta students in room 208. Times TBD
 - 7) Don't wait until the morning of a test or quiz to start getting help – plan ahead!
- *If **all** the above isn't enough, consider hiring a math tutor to address specific weaknesses.*
