

Good afternoon,

Our geometry team met this morning to develop a plan that addresses the new guidelines sent out yesterday afternoon. Ultimately, students will be presented with two choices. The first choice is for students to accept their grade as of March 13, 2020. This is the grade currently seen in ParentVue or StudentVue. If students want the opportunity to improve their understanding of the geometry content and their grade, then they will continue the distance learning process. The remainder of the distance learning process will focus on review and grade recovery options that will be administered in two phases.

- The first phase will begin April 13th and will include a review of each unit (Unit 7, Unit 8, and Unit 9) taught in the spring semester. For each unit, students will be assigned a worksheet composed of 20 problems that students will complete by hand and submit via Remind 101 or email (erin.corbin@cobbk12.org). Each of these assignments will be graded for accuracy and worth 100 points. Upon completion, the score received on their unit test and on the recovery worksheet will be averaged to replace their original unit test grade. Students have the option of selecting any or all units to recover during this phase. Please realize that if once students have achieved their desired grade they are no longer required to continue the distance learning process.
- The second phase will begin April 27th. This phase is considered the EOC replacement opportunity and is worth an optional 20% of their grade. Students will be given a review packet consisting of 100 problems covering all the units taught in the fall (Units 1-6). Students will work on the packet at their own pace and submit by May 15th. The packet will be graded for accuracy and the score will be placed in the EOC category.

Please note that I am here to support all my students through the end of the digital school year! I will host a Zoom meeting on April 13th at 10 am to address any questions or concerns students may have after reading this email. Also, I will have office hours Monday-Friday from 9 am – 12 pm. During my office hours I am available to email, Remind 101 chat, or host a Zoom call. I hope you and your family are safe, happy, and healthy! Enjoy your much-needed Spring Break and I look forward to hearing from you all next week.

Coach Corbin
